

On behalf of my office as State Representative for District 82, I am pleased to write this congratulatory letter to you, Dr. Charlotte Patterson Morris, as this epochal event celebrates your tenure as the Ninth President of Tuskegee University. I am proud to celebrate this important milestone with you. Through your tireless work and programs, I encourage you to sustain the profound legacy of our visionary founder, Booker T. Washington. You lead nearly three thousand students, faculty, and staff and have over 30 years of higher education experience. My office thanks you for your yeoman service!

You garnered the hearts of your constituencies, and they put their trust in you because of your skills and the credentials you possess to lead with perfection. Your educational background ranks you among the best, with an earned bachelor's degree, a master's degree, and an earned Ph.D. degree. You did not rest on your laurels because your studies continued as you completed additional graduate-level coursework at the Harvard University Graduate School of Education's Institute for Educational Management.

Having continued to distinguish yourself not only as a professional but one who provides community service. Having received the Tuskegee University's Distinguished Administrative Staff Achievement Award, the service award from the Charles Stewart Mott Foundation.

It is with deep gratitude that I, as the leader and the constituencies of the 82nd District, congratulate and celebrate with you on this momentous occasion as you are installed as the ninth president of Tuskegee University.

Sincerely,

Pebblin W. Warren
