Objective2. Design a complete chemical process and perform economic analysis of the process.

Objective3. Develop oral and written communication skills.

Objective4. Function on a team.

Course level student learning outcomes:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global,

6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

General Policies:

Attendance is important for successful completion of this course.

No late project is accepted.

Brief typewritten progress reports are submitted to the instructor every week, and short presentations on weekly progress reports are given to the class.

The final oral presentations will be scheduled for the week before the final semester examination period.

A typewritten final report should be ready for the week before the final semester examination period.

Weekly progress reports as well as a final report should be written with a PC-computer word processor.

Medical reasons with **WRITTEN PROOF**.

In the event of an excused absence, make up assignments must be done by the next class meeting following the date of the excused absence (unless scheduled with the instructor). The student is responsible for his/her own missed assignments.

Effective Spring 2012, the tuskegee.edu email system at Tuskegee University is required for all instructional administrators, faculty, staff and students.

Effective Spring 2012, all instructional administrators, faculty, staff and students are required to use CANVAS and Navigate (EAB).

Academic dishonesty policies outlined in the undergraduate handbook will be strictly enforced.
